Showers, Thermostats & Mixers

Technologies

The angle of the overhead shower can be adjusted and the water spray can be individually adapted.

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

For requirements at any height - so the mixer fits perfectly into the desired washbasin situation.

Thermostatic mixer with innovative cooling technology to prevent scalding and stop it from feeling uncomfortable to touch.

Environmentally friendly mixer that conserves valuable resources, reduces CO_2 emissions and cuts costs.

Hooks, baskets & co. can be simply attached to the wall rod and removed at any time.

Quick and safe installation - several features ensure easy installation.

Shower that uses up to 40% less water than a conventional model, also reducing energy costs.

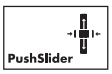
This economical shower consumes up to 60% less water than conventional models. This also reduces energy costs.

Mixer that consumes only 5 l/min and thus reduces water and energy costs. Good for the environment and the wallet.

Climate-protecting fitting that consumes only 4 l/min at 3 bar. Less water - less energy consumption.

The shower's quick emptying function reduces the dripping time after showering.

The accessory can be affixed using the glue that comes with the product – or it can be screwed on.



The height of the hand shower can be singlehandedly and smoothly shifted at the touch of a button.

Limescale deposits and dirt can simply be rubbed off with a finger. For less cleaning effort.

The bath filler can be swivelled under the thermostatic mixer when not in use. Nice and tidy.

Safety lock at over 40 °C - temperature limit, which prevents excessively hot water from escaping.

A playful way to control the water flow, shower or spray type at the simple touch of a button.

The high-quality installation set has a pre-assembled sealing fleece and is 100% waterproof.

Actively regulate water consumption - the amount of water can be adjusted using the control dial.

Large-scale distribution of the water in the shower so that the whole body is cocooned in feel-good droplets.

Spray modes

Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

Powerful, stimulating water sprays that wash away tiredness and leave people feeling fighting fit.

Invigorating, concentrated spray for the home spa that allows the day's stresses to simply drain off.

Targeted spray that gently relaxes for soothing wellness moments.

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Shower drains & Wall niches

Technologies

The shower drain is installed flush and level with the surrounding tiles for zero trip hazards.

Odor sealing via a flexible membrane combines high drainage capacity (up to 60 l/min) with minimum cleaning effort.

The odour trap itself can be removed for cleaning, even once the drain has been installed.

Practical and reliable shower drainage solution that can be installed anywhere in the shower area.

Easy-to-clean shower drain channel: Simply take off the cover using the tool that comes with the product to remove residue.

The high-quality installation set has a pre-assembled sealing fleece and is 100% waterproof.

Kitchen

Technologies

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

Ensures maximum freedom of movement at the sink, both in height and in the lateral swivel range.

The app provides important information about the kitchen mixer. It informs you about fill levels and more.

The low-pressure technology enables use from as little as 0.2 bar. Suitable for boilers/heat storage tanks.

This allows drinking vessels to be filled individually and precisely. The water flow stops automatically.

A pull-out shower or spout greatly extends the radius of action at the sink.

Filtered or mineralised water comes out of this user-friendly kitchen mixer at the touch of a button.

Limescale deposits and dirt can simply be rubbed off with a finger. For less cleaning effort.

Smooth and protected guidance of the hose. The pull-out shower can be extended up to 76 cm.

One press of a button is all it takes to regulate the flow of water at the sink.

At the touch of a button, treated water comes out of the mixer, either still, medium or sparkling.

Separate lines for treated and untreated water provide safety when tapping.

Spray modes

Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling vessels.

Full spray enriched with air that feels lovely and helps with all sink-based routines.

Resource-conserving and efficient kitchen spray that can also be used to quickly rinse food.

iBox universal 2 Basic set

Features

- suitable for all new shower, bath tub and thermostat finish sets for concealed installation
- material: dezincification brass, EPP foam, heat and sound insulating
- connection thread Rp ½
- connection dimension: DN15
- rotationally-symmetric installation
- sound-decoupled installation
- flexible mounting ring for different mounting situations
- mounting ring adjustable in 5 mm steps
- mounting ring suitable for front and rear installation
- no shortening necessary thanks to sliding sleeve
- Support aid for the spirit level
- integrated spirit level for correct horizontal and vertical alignment
- sealing foil permanently fixed
- power supply: DN16 conduit
- minimum mounting depth: 80 mm
- maximum mounting depth: 108 mm

iBox universal 2 Basic set

Features

- suitable for all new shower, bath tub and thermostat finish sets for concealed installation
- material: dezincification brass, EPP foam, heat and sound insulating
- connection thread Rp ½
- connection dimension: DN15
- rotationally-symmetric installation
- sound-decoupled installation
- flexible mounting ring for different mounting situations
- mounting ring adjustable in 5 mm steps
- mounting ring suitable for front and rear installation
- no shortening necessary thanks to sliding sleeve
- Support aid for the spirit level
- integrated spirit level for correct horizontal and vertical alignment
- sealing foil permanently fixed
- power supply: DN16 conduit
- minimum mounting depth: 80 mm
- maximum mounting depth: 108 mm

Rainfinity Showerpipes 1jet with thermostat

Features of all variants

- consists of: overhead shower, hand shower, shower thermostat, shower hose, slider, shower bar
- spray type overhead shower: PowderRain
- ball-joint: overhead shower angle adjustable
- 90° position adjustable hand shower holder, pivots left and right, up and down
- spray disc surface: graphite
- spray type hand shower: PowderRain, Intense PowderRain, MonoRain
- bar width: 61 mm
- thermostat ShowerTablet 350
- safety stop at 40 °C
- adjustable hot water limitation
- outlets controlled via turning handle
- will not run two outlets at same time
- suitable for continuous flow water heaters
- mounting type: exposed installation
- connection dimension DN15
- connection thread G ½
- centre distance 150 ± 12 mm
- intrinsically safe against backflow
- 2 functions

RainDrain & XtraStoris

RainDrain Original Finish sets shower drains

Features of all variants

- consists of: finish set shower drain, installation set, Dryphon, sealing membrane, grate removal tool
- mounting type: free in the floor
- frameless design
- easy to clean surface
- height adjustable by 10 mm
- tile thickness: up to 18 mm
- up to 49 l/min drainage capacity
- where to use: renovation, new construction
- grate removal tool allows easy removal of the finish set
- type of odour seal: mechanical
- Dryphon enables waterless siphon system
- installation on the screed
- grate material: Stainless Steel 304 (1.4301)
